

Wolverines meeting 4/6/2009

Minutes taken by Glen Meller, Treasurer, in the secretary's absence

Jerry opened the meeting at 7:15 p.m. with five members present.

Old Business:

Glen gave the financial report. The club has \$2,103.97 cash on hand.

New Business:

No one is to drive on the road to the field until notified that it is safe to do so.

Show-and-Tell:

Joe Mack brought in his T-Craft plane for inspection by the members.

All the cooks had their hands in the broth! By the time the critiquing was done, Joe had his work cut out for him. All kidding aside, the members did find a couple of fatal flaws that needed correction and Joe was very appreciative for the suggestions.

The last few minutes of the meeting was spent telling stories of past disasters that members witnessed over the years e.g., planes flying through car windows, smashing into metal sheds, etc.. The stories were very interesting and highlighted the importance of safety.

50-50:

There was no 50/50 because of the small number of attendees and besides, Pete left his wallet at home.

Meeting was adjourned at 8:10.
