

## **Wolverines meeting ' 6/6/2009**

Meeting held at the Field

Jerry opened the meeting at 11:15 p.m. with 15 members present.

### **Old Business:**

Jerry started by identifying the tree that marks the north limit of our boundary. We must not fly north of that line, as it only takes only one complaint to stop us.

We discussed the tractor situation. The landlord always let us use his tractor, but the crankshaft broke, so he had to get another. We wanted to offer \$400 to them to assist the purchase, and a motion was made by Bill Welser, seconded by Dave Bacon, and it passed the vote. They will be very happy.

Glen gave the financial report. The club had \$2,256 to start, now has \$2,678.. After expenses to pay we will have \$1,725, then we pay for the field, leaving \$792.

We opened the discussion about the trees we irreverently refer to as "Pete's trees", and decided to talk to the landlord about them. He has offered to "top" them before, and can do it safely.

### **New Business:**

We got to welcome Bob Branch, our V.P.'s son, into the club. When we tried to make light of the name similarity, he referred to himself as "The Upgrade" thanks for joining us.

Concerning the fun fly, Joe will not be here to cook, so Bill Welser volunteered for that.

We voted on a motion to give Pete \$150 to take to the Prop Shop for prizes, and they always treat us well. In case you need information, Prop Shop Hobbies, Inc. is at 23326 Van Dyke, Warren, Michigan 48089 Phone: 586-757-7160, they have everything for RC there, just north of 9 Mile Rd on the east side.

Motion made by Dave Bacon, supported by Bill Welser, voted and passed.

Glen will bring pop, Pete will bring the sausage, and Bill Welser will bring the ingredients to stew the sausage in, green peppers, onions, and beer.

We decided a rain alternate day would be the following Sunday (Jun 21).

Once again, Jack from the Eagles will assist us, and we are all grateful for his expertise.

The Fun Fly will start at 9 AM Jun 20th.

Bill Welser mentioned that we could get a cherry picker, which rents out for a weekend for \$225, and we would get Sunday, and split the price with his church, who would use it Saturday. This would allow us to trim the tops of all the trees that keep the sun off our road. If we did this, possibly this fall, we would get our road to dry out faster.

Lastly, we need a volunteer for V.P. as Bob Branch will be vacating this spot after serving for many years.

The meeting was adjourned at 11:41 AM, and flying commenced...

There appeared a strange plane called a Capricorn and when asked for the build link the reply was:

<http://www.wattflyer.com/forums/showthread.php?t=26120&page=22>

Dave Bacon will be happy to answer questions on this plane, just email him.
